

TABLE OF CONTENTS

PART I: GOALS METHODOLOGY AND PARTICIPANTS

Introduction	
Goals of the Science and Technology Master Plan	3
Methodology and S&T Strategy	4
Context	4
Basic Approach	6
Science and Technology Sector Strategy	7
The Work Plan: Operationalization of the S&T Master Plan Methodology	13
Final Points	17
Participants	18

PART II: ANALYSES OF S&T CAPACITY AND NEEDS

CHAPTER 1: STRUCTURE OF THE ANALYSIS OF CAPACITY AND NEEDS

Introduction	
Trans-Sectoral Issues	3

CHAPTER 2: ECONOMIC AND HUMAN RESOURCE CONTEXT

Introduction	
The Maldivian Macroeconomy	2
Key Findings	13
Labour Market Information and Data	18
Supply and Demand for Science and Technology Occupations	19
Assessment of the Science and Technology Sector	24
Summary	28

CHAPTER 3 INFORMATION TECHNOLOGY

Introduction	
Capacity and Needs Analysis	3
Overview	3
Ministry of Transportation and Civil Aviation	4
Ministry of Fisheries, Agriculture and Marine Resources	5
Ministry of Planning and National Development	5
Public Service Department	5
Ministry of Trade and Industries	6
Customs Service	6
Maldives Airport Company	7
Ministry of Finance and Treasury	7
Ministry of Education	8
Department of National Registration	8
Ministry of Justice	8
Information Technology in the Atolls	9
Summary of Information Technology Issues	12
Recommendations	
The National Computer Center	14
Developing a Common Government IT Standards Framework	22

The Government Network of the Maldives	30
--	----

CHAPTER 4: TELECOMMUNICATIONS

Introduction	
Capacity and Needs Analysis	6
Upgrading the Telecommunication System	6
Improving the Affordability of Telecommunication Services	8
Increasing System Security and Stability	12
Enhancing Internet Access and Use	13
Widening the Availability of Mobile Services	14
Key Conclusions	15

CHAPTER 5: FISHERIES

Introduction	
Fisheries Sector Needs and Capacity Analysis	7
Harvesting Subsector	7
Handline and Longline Fishery	12
Reef Fish Fisheries	15
Post Harvest Subsector	19
Marine Research, Resources and Institutions	23
Environment Research Centre	29
Externally Funded Marine Research Projects	30
Fisheries Resource Management	32
Appendix A: Agriculture	42

CHAPTER 6: EDUCATION

Introduction	
Budget	2
Primary Education	4
Lower Secondary Education	4
Higher Secondary Education	5
Post Secondary Education	6
Needs and Capacity Analysis	7
Use of Technology in Educational Management	7
Use of Technology in Instruction and Delivery of Educational Services	9
Distance Education	12
Science and Technology Education	12
Concluding Analysis	24

CHAPTER 7: HEALTH

Introduction	
Needs and Capacity Analysis	3
Human Resource Development	3
Health Information System	11
Disease Surveillance	14
Physical Facilities	15
Water & Sanitation	17
Traditional Medicine	20
Emergency Medical Care	21

Research	22
Summary and Conclusions	24

CHAPTER 8: TOURISM

Introduction	
Capacity and Needs Analysis	6
Communication and Marketing	7
Sector Co-ordination Issues	10
Human Resources and Training	11
Transportation Issues	14
Environmental Monitoring	16
Social and Cultural Heritage	19
Safety	20
Summary	22

CHAPTER 9: TRANSPORT

Introduction	
Assessment of Transport Needs and Capacity	3
Land Transport	3
Air Transport	4
Sea Transport	7
Transport Safety	10
Summary and Conclusions	11

CHAPTER 10: ENERGY

Introduction	
Electricity Rate Structures	4
Expansion of Energy Services within the Atolls	6
Exploring Energy Options	6
Safety Concerns	8
Research Needs	10
Summary	11

CHAPTER 11: LIST OF KEY S&T ISSUES

General Contextual Issues	
Economic and Human Resource Context	2
Information Technology	4
Telecommunications	6
Fisheries (and Agriculture)	7
Education	9
Health (and Water)	11
Tourism	14
Transport	15
Energy	17

PART III: PROGRAMME ALTERNATIVES

PROGRAMME ALTERNATIVE #1: Review of Expatriate Labour Involvement	2
PROGRAMME ALTERNATIVE #2: Creation of a National Technical Training Council to Enhance Linkages between Employers and Technical Training Institutions	4

PROGRAMME ALTERNATIVE # 3: Development of a Computerized Labour Market Information System	6
PROGRAMME ALTERNATIVE #4: Development of a Training Program to Assist Private Fishing Vessels to Install Chilled Seawater Systems	8
PROGRAMME ALTERNATIVE #5: Establishment of a National Computer Centre	9
PROGRAMME ALTERNATIVE #6: Creation and Operation of the Government Network of the Maldives (GNM)	11
PROGRAMME ALTERNATIVE #7: Creation of a Interactive Science Centre	12
PROGRAMME ALTERNATIVE #8: Developing Marine Resource Management	14
PROGRAMME ALTERNATIVE #9: Strengthening Marine Research	16
PROGRAMME ALTERNATIVE #10: Promoting Mari-culture Research	18
PROGRAMME ALTERNATIVE #11: Promotion of Fisheries Sector Technology Transfer	20
PROGRAMME ALTERNATIVE #12: Improving Agriculture Research and Advisory Services	22
PROGRAMME ALTERNATIVE #13: Strengthening Science and Technology Education	23
PROGRAMME ALTERNATIVE #14: Promoting the Effective Use of Industrial Technology at All Levels of the Education System	26
PROGRAMME ALTERNATIVE #15: Modernizing the Health Information System	29
PROGRAMME ALTERNATIVE #16: Establishing Telemedicine to Increase Access To Medical Services in the Remote Areas and for Support of Staff Training	31
PROGRAMME ALTERNATIVE #17: Creation of a National Research Foundation	34
PROGRAMME ALTERNATIVE #18: Implementing the Multipurpose Community Telecentres Concept	37
PROGRAMME ALTERNATIVE #19: Strengthening Environmental Analysis across Sectors	38
PROGRAMME ALTERNATIVE #20: Application of S&T Capacity within the Tourism Sector	41
PROGRAMME ALTERNATIVE #21: Incorporation of S&T Topics within Transport Master Plan	43
PROGRAMME ALTERNATIVE #22: Research Programme Initiated for Hybrid Energy Alternatives	45
PROGRAMME ALTERNATIVE #23: Conduct of a Management Audit of the Ministry of Communications, Science and Technology (MCST)	46
